What is claimed is:

1. A liquid crystalline polyester resin for a reflector plate, wherein a YI (Yellowness Index) value is 32 or less.

2. A resin according to Claim 1, wherein an L value is 75 or more.

3. A liquid crystalline polyester resin composition for a reflector plate comprising:

a resin according to Claim 1; and

titanium oxide.

4. A reflector plate comprising the liquid crystalline polyester resin according to Claim 1.

5. A reflector plate comprising the liquid crystalline polyester resin composition according to Claim 3.

6. The reflector plate according to Claim 4 or 5, wherein the reflector plate is obtained by injection-molding.

7. A light emitting diode comprising the reflector plate according to Claim 4 or 5.

8. The light emitting diode according to claim 7, wherein

the light emitting diode is blue light emitting diode.

9. The light emitting diode according to claim 7, wherein the light emitting diode is white light emitting diode.

10. A backlight comprising the light emitting diode according to claim 7.
